The Mission of the office of Disability and Accessibility Services (<https://umdearborn.edu/students/disability-and-accessibility-services/>) is to ensure that students with disabilities have equal access to all university programs and activities. We provide students the opportunity to reach their full potential by coordinating academic accommodations and support services. The Disability and Accessibility office works collaboratively with students, faculty and staff to build and maintain partnerships allowing for an inclusive educational environment. We serve as a valuable resource for the University of Michigan Dearborn campus community in supporting the success of students with disabilities; cultivating opportunities for students to articulate their strengths and responding to the student needs and learning environments.
