

DEFERRING ADMISSION

Students who have been admitted but did not enroll may defer admission up to one year. After that, a new admissions application must be submitted.

To defer admission, students complete an Admission Information Change Form available to download at umdearborn.edu/ddc (<http://www.umdearborn.edu/ddc/>) and must disclose if there has been or will be any enrollment at another school prior to the new deferred semester. Students will have their application reviewed to determine if they are admissible for their deferred term of choice. Failure to disclose this information may result in the revocation of admission.
