

LIVING, WORKING, ADAPTING, AND CONNECTING DURING A PANDEMIC

Integrative Studies Concentration only

The courses in this concentration provide students with the psychological knowledge and skills to better understand the mental and physical health, aging, the media, and the workplace during a pandemic. Through the study of psychological science, students will better understand how individual, interpersonal and institutional policies and practices affect the social, political, economic, health, and aging outcomes from a global pandemic.

Integrative Studies Concentration only
